VISTA V1200
NEW 6MB HARD DISK
ALTERNATIVE!

Mass Storage for your Apple II™ has always been a problem. On one hand, there were the exotic, expensive hard disks with no cost efficient means of backup. On the other hand, the Apple floppy drive lacked the speed and storage demanded by today's professionals.

Vista's V1200 offers both at an incredibly attractive price. The removable VistaPak cartridges offer 6 Megabytes of removable storage each and can be backed up like a floppy.

Now hard disk storage and speed can be yours with the added capability of interchangeable media. The V1200 eliminates the worries of head crashes, drive alignments, ost data, or backup with a new application of field-proven loppy technology.

VISTAPAK CARTRIDGE holds five 51/4" diskettes at 1.2 Mega-Bytes each. Selection of the diskette is made by the pak articulator to present the proper diskette to the picker arm.

DISKETTE PICKER grasps the proper diskette and loads it into the drive accurately. The drive senses improper loading, and reclamps the diskette automatically.

MICROSTEP SERVO CONTROL the drive automatically calibrates itself to each diskette individually, assuring interchangeability of media between drives, and making drive alignment a task of the past. Our special servo can move in increments as small as 1/100th of a track, and even track diskettes recorded off-center.

MICROPROCESSOR CONTROLLED SPINDLE speed ensures accurate recording and retrieval of your valuable data.

The Vista V1200 also incorporates features such as; automatic recalibration of the drive if left unused for 2½ minutes, automatic diskette storage should the drive door be opened, and power conservation logic to insure no more than one motor is operating simultaneously to keep temperature down, and reliability high.

The VistaPak cartridges hold 6MB of formatted data each. The removable cartridge allows you to keep duplicates of your valuable data as well as to keep separate paks for your accounting, wordprocessing, spreadsheet and other applications. No other storage device offers more in flexibility and capability.

THE INNOVATIVE VISTAPAK

The Vista V1200 system uses an advanced DMA controller to insure data integrity, and to keep data moving at the maximum possible rate.

Included with every system is software for Apple DOS 3.3TM, Apple PASCALTM, and MICROSOFT CP/MTM. Also included is Quickcharge, our proprietary, high-speed enhancement to DOS 3.3, enabling a 5x speed increase.

OTHER STORAGE DEVICES VS. VISTA V1200

Maybe you're not quite convinced yet. The best feature of the V1200 is that it is priced significantly below the competition: \$1549.00 (mfgr. sugg. list), and is available from your Local Dealer. See one today.
